A Sharpdeen Son.

A Vacation That Kicks Off A Mystery

There was once a odd family of “Exuberant Extraordinaries” started from 3 old military vets who became legends, they were a sibling trio of single parents, who pulled together into one big family to look out for one another.

They have had their ups and downs though out the years, but it worked out despite each their own quirky looks and character, one day while getting groceries “Betsy Bigfoot” at the cash register was given a promotion game to a contest to win a trip to see the United States Constitution.

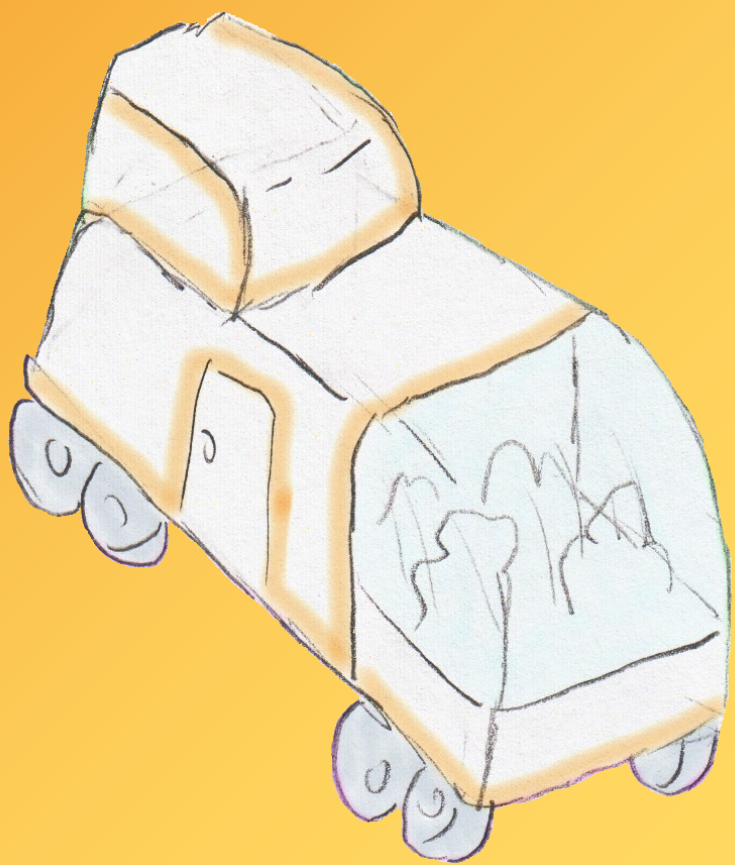

She brought it home to show her siblings Monty Mothman and Persey Devil, which in a

Kidding manner played the game, in the week, Betsy found out that she had won, and so in complete surprise and some excitement, prepared.

The prepared RV rolled to the house and the family packed and they all got in, Monty was suspicious thinking it seemed to easy and they won too quickly.

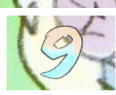

But seeing Persey plan out what he was going to do, moved Monty’s mind away from that.

And so he too started to think what he was going to do when they got there, and so the RV zoomed off to their destination.

Winding Up!

During Gameplay many different pictures around the screen will help to tell your health, spin stamina, and your progress.

The head of character you are playing as will always appear on the upper left corner of the screen . this basically displays how that character is feeling currently.

After touching a bell, it will appear on the upper right corner of the screen, when 3 are obtained, a fight awaits!

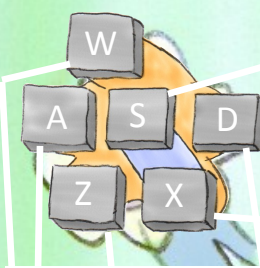

Found southeast from your character’s head, this number is your lives count, when it runs below 1, you get a game over and must restart.

This is your health and stamina, when you get hit the rightmost colored pumpkin will turn gray, when all pumpkins are gray you will lose a life and return from the last point in which you entered.

See the orange outline around each pumpkin? This is your stamina, it drains when you use your spin moves when it drains completely you cease use of those moves until it recharges .

Which of course happens when your on the ground not using spin moves, but be careful, the recharge will only go up to your last colored pumpkin!

Controls

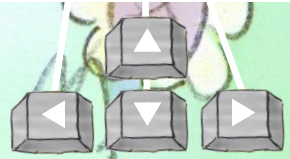

On the upper right corner of the screen is star with keys on each of it’s limbs and it’s center, each key on this star do something in the game, and are your controls for the game,

The center key does many actions such as swimming, talking to people and twirl diving. But at the appropriate times

The limb Keys (except for the right leg key) control the camera view, the arm keys rotate the camera around your character while leg keys zooms in, and zooms out.

The directional keys move your character in the direction of the arrow where it is pointing.

The right leg key when held while moving will cause you to “Gyro Twirl”, which you can move faster, and on walls and ceilings.

Meet The Family

Betsy Bigfoot: A crass and rude but good hearted Bigfoot, the single mother of Malena Main Coon, Mao The Chao, Ake The Snake, and Dail The Snail.

She is also the sister of Monty Mothman and Persey Devil, she uses her tail wings to wrap around her pelvis and form a billowy skirt, she is a “Whirligig Willie”.

Pesey Devil: A optimistic and slightly mean spirited devil who is another “Whirligig Willie”, he can position his sickle shaped wing around his pelvis like a hoop to spin like a button whirligig.

He is the brother of Betsy Bigfoot and Monty Mothman, he also has a little one who is a mermaid named Trampoline.

Monty Mothman: A dark humorous (mean spirited) “Whirligig Willie”, a Mothman if you will, he can use vibration while positioning his three wings into a rotor (copter) to spin.

He is the brother of Betsy Bigfoot and Persey Devil, he also has a mermaid daughter named Piñata.

Piñata The Mermaid: Monty’s little one, A mermaid born in the swamp, hence her legs, she speaks mostly “Piñata Speak”.

She hunts for piñatas all day, She can swim all around and can freeze water or moisture, she can take advantage of this by freezing her own moisture to stick and climb walls.

She can also shoot ice bullets under water! (Piñata’s gameplay is not available in this preview)

Trampoline The Mermaid: Persey’s little one, A mermaid that can bounce with her tail, she is also a pyrokinetic. She is normally docile mannered however if provoked, she will prank.

She can heat water and can use her bio-magnetic field to reflect heat, thus allow her to cross any temperature liquids (Trampoline's gameplay is not available in this preview)

Pually Pinwheel: A creation of Betsy Bigfoot, and the sister product of “Sammy Slinkee” she has a jumpy attitude, she can fly like a plane if running fast enough.

She is a Gynecoid built from Betsy’s last “Breezy Bride” sprite, she can gyro twirl and jump! (Pually’s gameplay is not available in this preview)

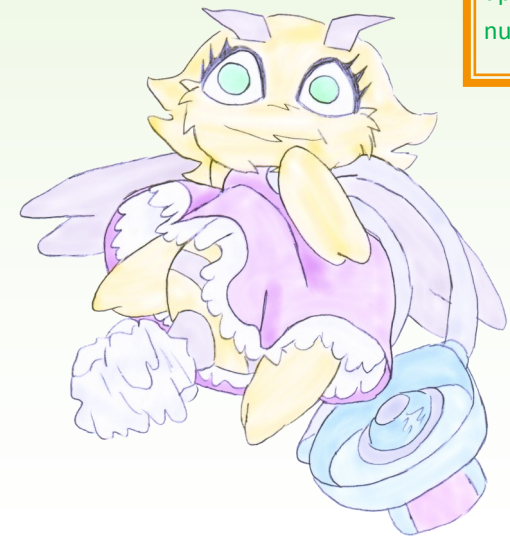

Meet the Villains

The "Smitty": a anteater like creature, not vary smart but reliable, blue ones are female and red ones are male, if that matters.

The "Somie", a tumbleweed like race which is sadly gullible, however to make up for that, they are numerous.

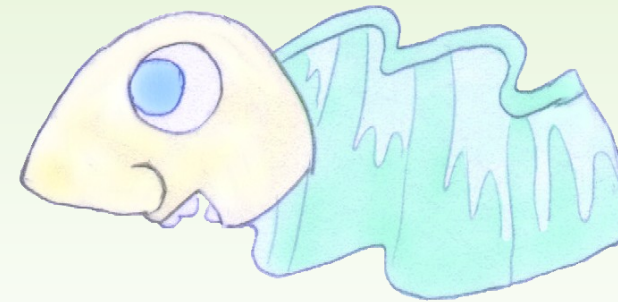

The "Beeva", a bratty bee bunch whom seems to be paid off with treats.

But by whom?

"Expeditioner", a good lackey for the culprit, she appears to be a Easter Island head of sort, she can blow powerful songs at you which can cause harm, watch out now, you do not want your ears to blow!

Also what is worse is her insane jumps, that impact can cause some waves!

"Gulper", a ribbon fish, a master of ponds, cause tidal waves that can wipe any smirk off someone's face, and racing across waters at jet speeds.
